### Before you leave

Bring a photo ID (passport or driver's licence) that corresponds to the lead guest's credit card – it's important that we confirm who's arrived at our hosts' homes.

Bring a credit card on which we'll pre-authorise the security deposit.

Read the home truths, terms and conditions and, if you're still burning with curiosity, our FAQs.

Your Meet & Greeter will introduce you to the home and our service.

They'll confirm the lead guest's ID and take a security pre-authorisation.

## Amazon Cloud Cam Subscriptions

About Amazon Cloud Cam Subscriptions.

Video clips are available for 24 hours no additional cost. If you have a U.S. country of residence, you can purchase an Amazon Cloud Cam subscription to gain additional storage and access to features like person detection.

If you choose to upgrade to a paid subscription, you will receive access to:

**Person Detection:** If Amazon Cloud Cam detects a person in its field of view, you will receive a notification.

**Zones:** You can choose up to four areas, or "Zones," that your camera will ignore. Once set, your camera will not record activity within your zones. Any motion outside your zones will be recorded. Zones can be deleted and reset at any time from the settings menu.

**Additional Storage Time:** Depending which subscription plan you choose, clips will be available in your Cloud Cam app for seven, 14, or 30 days instead of the standard 24 hours.

**Increased Camera Registration Threshold:** Depending on which subscription plan you choose, you may be able to register additional cameras to your Cloud Cam app.

### Subscription Types

The following subscription plans are available:

**Included with Purchase:** The plan that is included with the purchase of your Amazon Cloud Cam allows you to register up to three devices to a single Amazon account, includes the last 24 hours of video clip storage, and has access to Live view, motion-detection, and unlimited downloads and shares.

**Cloud Cam Basic Plan:** In addition to your benefits included with the device, the Basic plan allows you to register up to three devices to a single Amazon account, and includes the last seven days of video clip storage, person-detection, and Zones.

**Cloud Cam Extended Plan:** In addition to your benefits included with the device, the Extended plan allows you to register up to five devices to a single Amazon account, and includes the last 14 days of video clip storage, person detection, and Zones.

**Cloud Cam Pro Plan:** In addition to your benefits included with the device, the Pro plan allows you to register up to ten devices to a single Amazon account, and includes the last 30 days of video clip storage, person-detection, and Zones.
